

ShopSafe

Get Connected - Cut Crime

WHAT IS SHOPSAFE?

ShopSafe works by connecting retailers and licensed premises, with each other, the police and CCTV, through the latest digital radios and secure information sharing platforms.

Working in partnership to reduce the impact of crime and promote a safer and more profitable Town and City Centre.

-  **£770 Million** Lost to criminals by theft
-  **30% Increase** in reported crime since 2013
-  **50% Increase** in violent crime - 1 in 25 staff

MORE THAN JUST A RADIO

Essential Tier - PNC370

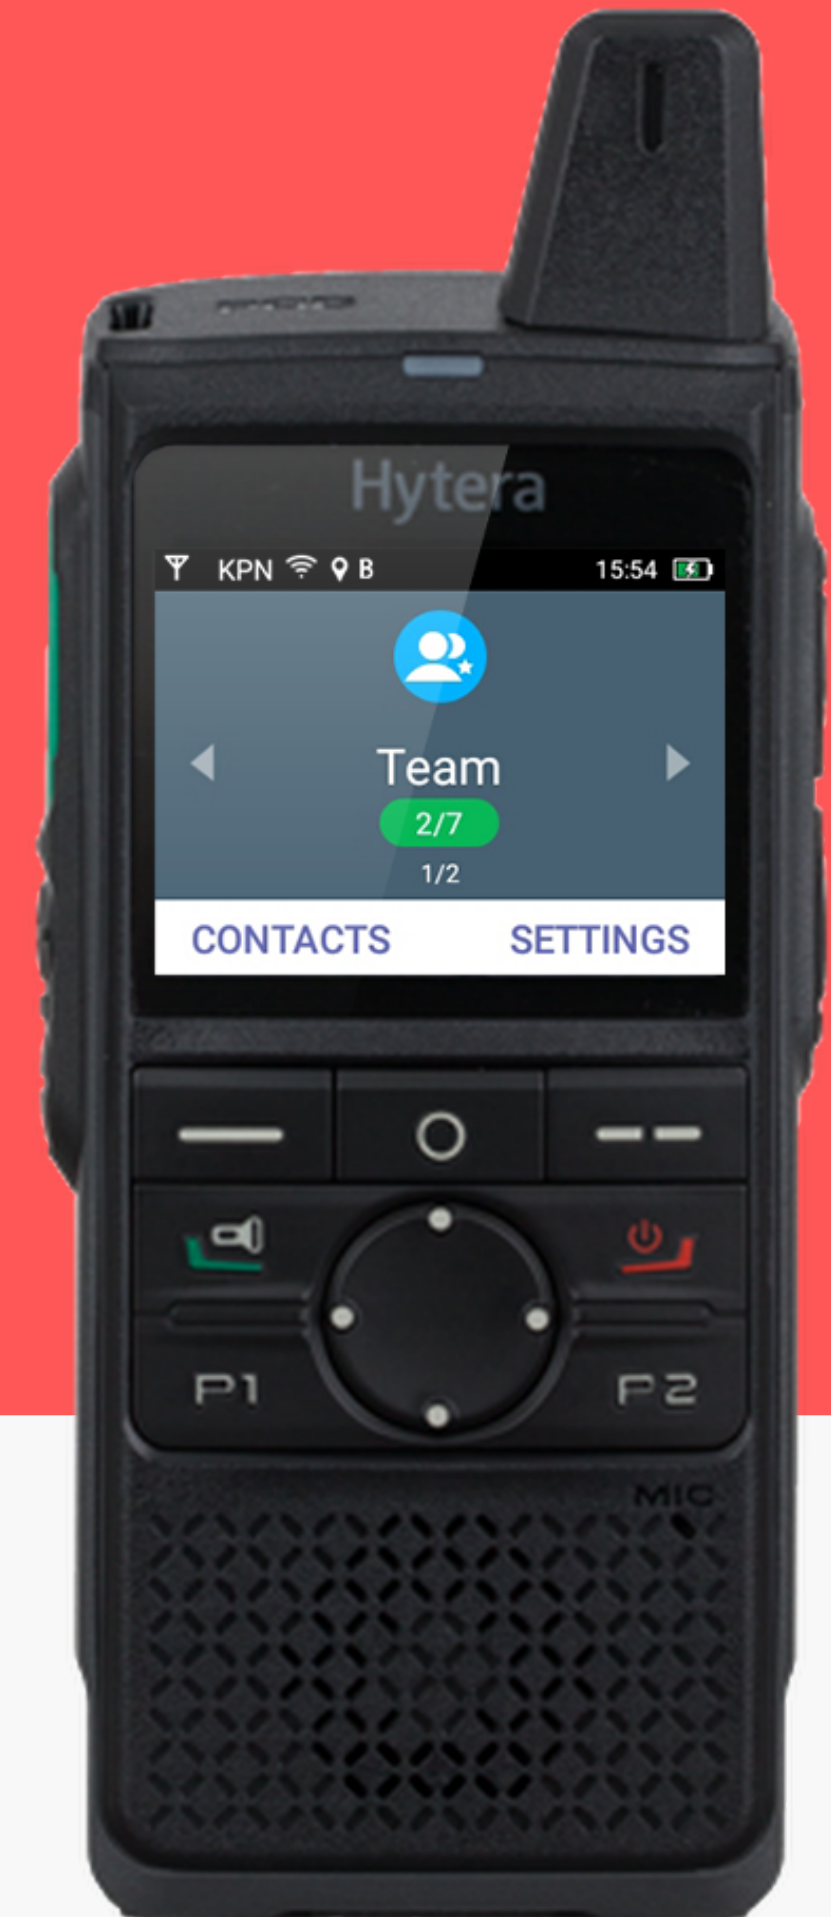

The PNC370 is our base model, but that doesn't mean low features.

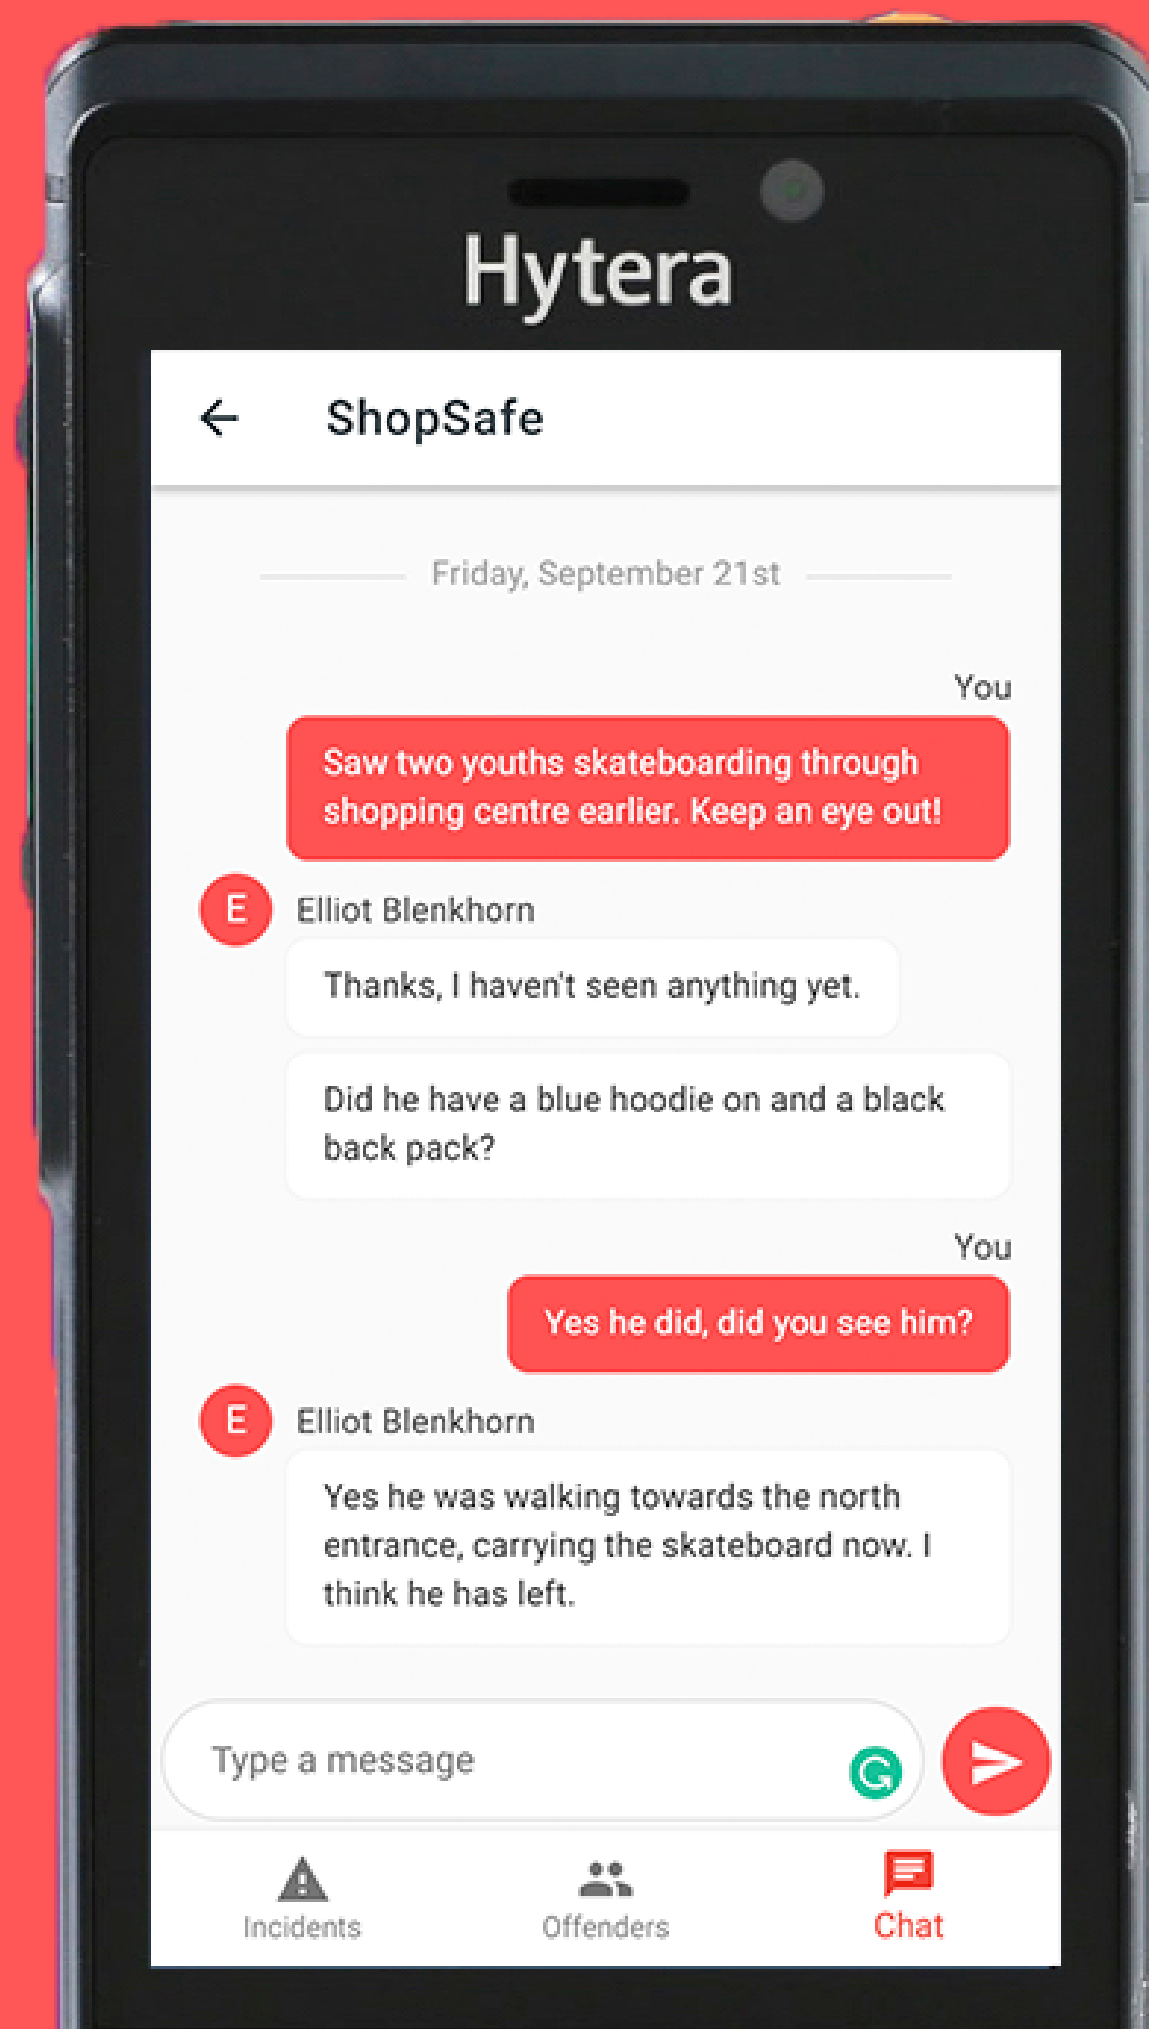

It boasts all the key features as standard for any of our systems, including HD audio with dual microphones for background audio suppression, SOS panic alarm and colour screen as standard.

The PNC370 is ideal for businesses that want a cost-effective, easy-to-use, solution

Regardless of the chosen radio tier, all our models are interoperable and include the same 24/7 (next day replacement) technical support as standard.

Powered by cellular technology, our radios have access to roam across all four UK networks, twinned with WiFi capability our radios can effectively

BE PRODUCTIVE

Advanced Tier - PNC550

The PNC550 boasts a fully operational android smart phone and integrated smart radio.

Make or receive phone calls and messages or even install your business apps to get more from your device.

It's best suited to businesses who want a single unified device to access our radio system and our alert! application.

CAPTURE THE MOMENT

Advanced Tier - VM780

Ideal for Wardens, Rangers and Security, The VM780 is our hybrid body camera and smart radio solution.

Fully compliant of British Standards, record video, audio and capture photos for evidence.

In an emergency press a single button to trigger local recording and stream your video footage live to CCTV control.

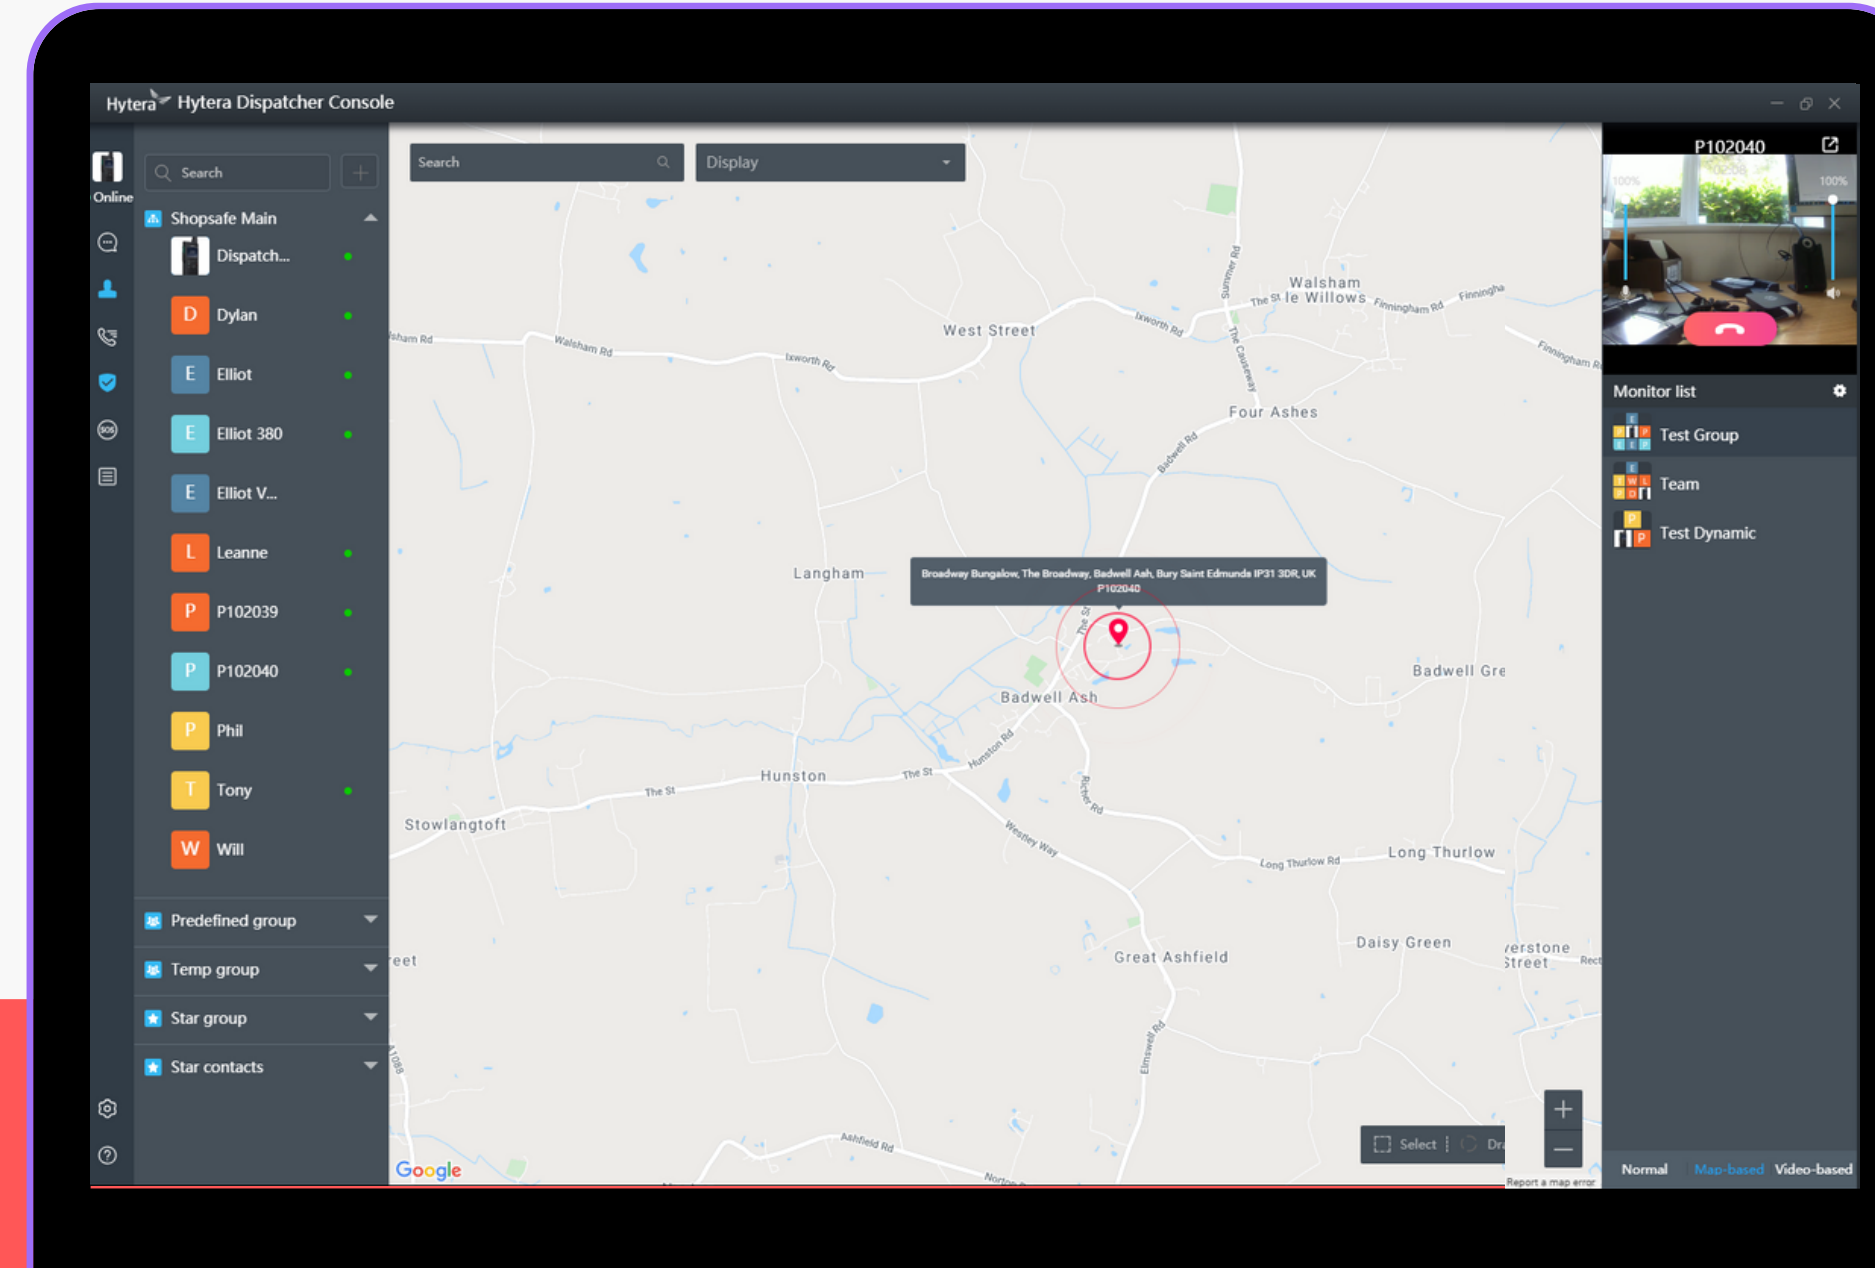

ALARM HANDLING & POSITIONING

LISTEN

When a user is in distress, an SOS call from any of our radios streams audio to dispatch without the users needing to press their PTT button.

SEE

All the radios send their location live to the dispatcher, which is displayed on an interactive map. The VM780 goes one step further by streaming its camera footage live too.

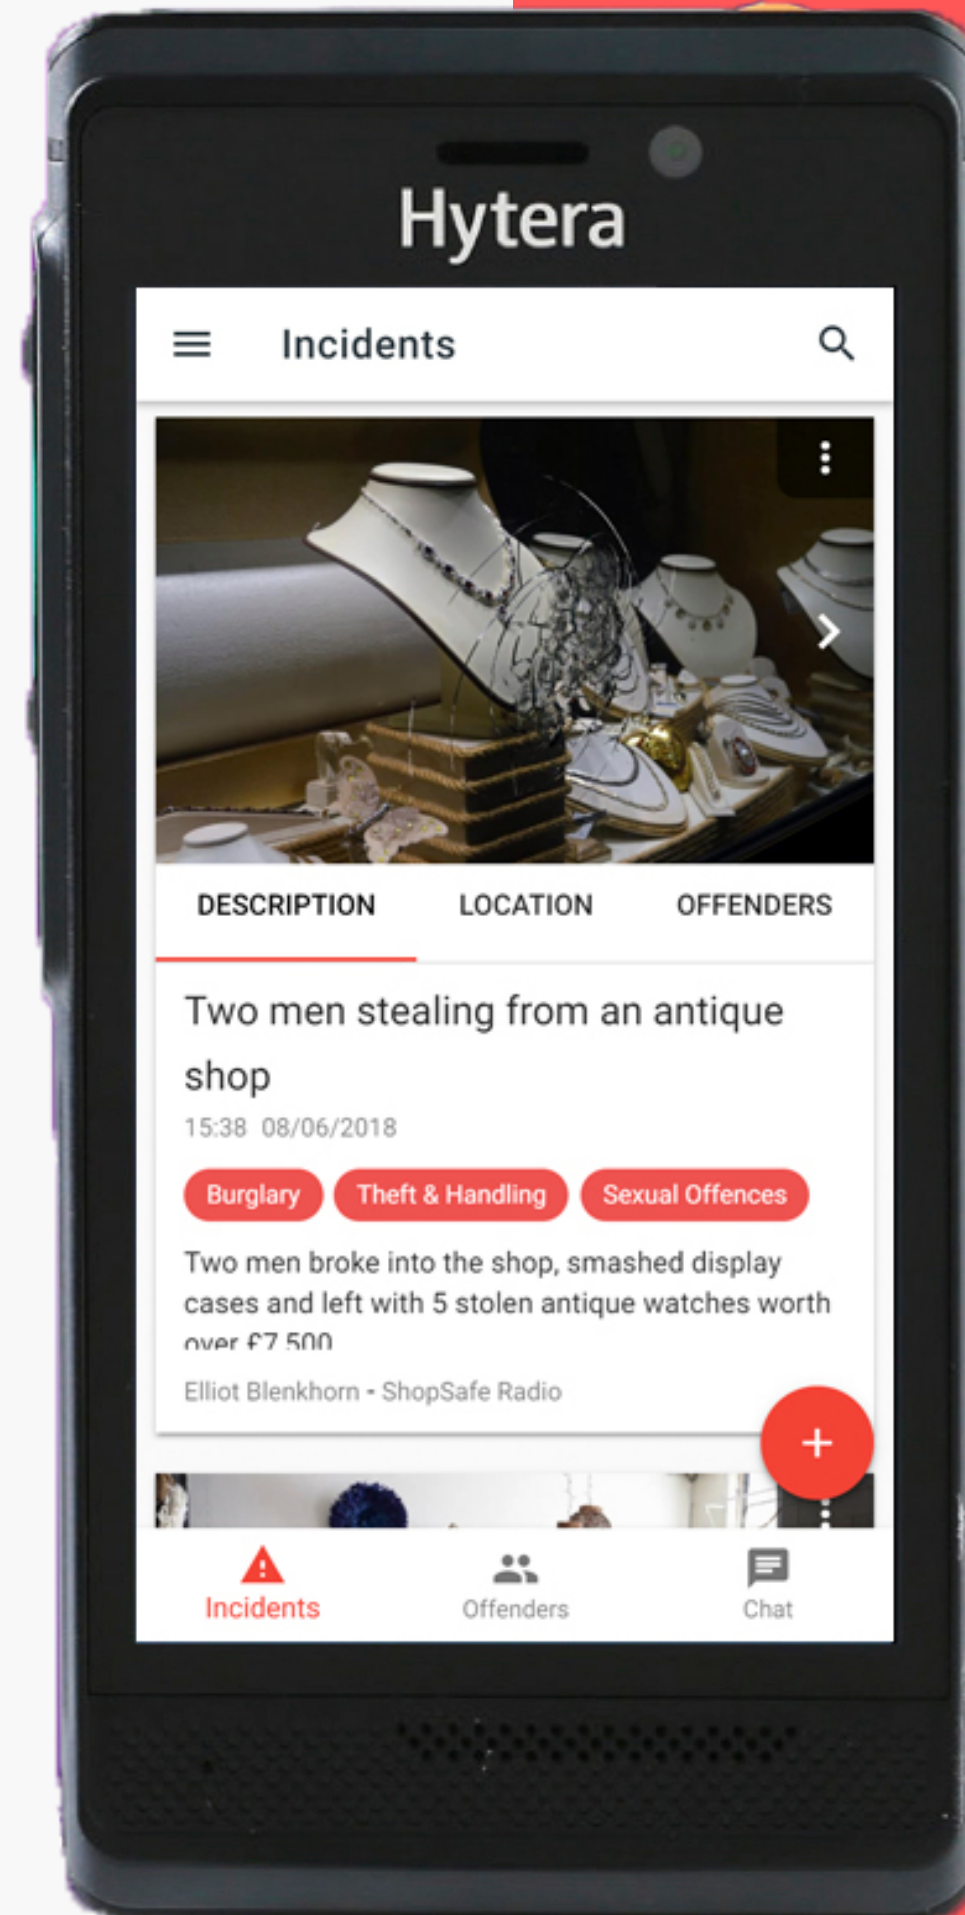

RESPOND

when the operator is ready to speak with the user in distress they can communicate in full-duplex with the user without the need to end the live stream. When the alarm has been handled the operator or radio user can cancel the alarm.

alert!

Introducing Our Secure Information Sharing Application

SHARE INCIDENTS

Upload and view incidents securely as a group – get notified as they happen.

OFFENDERS DATABASE

Easily add new offenders and assign exclusions – keep informed and be prepared.

INSTANT MESSAGING

Send sensitive messages and images as a group - share safely and securely.

ACCESS ANYWHERE

Laptop, tablet or phone - Alert! was designed to be used on all devices wherever you are.

FASTER SUBMISSIONS

Simple form with drop down fields and prefilled information – submit in seconds.

LIMITLESS GROUPS

Create groups and add users in seconds – Share the right content amongst the right people.

GET NOTIFIED

Email, SMS and push notification support – choose what's best for you so you never miss a thing.

The screenshot displays the ShopSafe Alert mobile application interface. The browser address bar shows the URL `app.shopsafealert.co.uk/login#/incidents`. The app header features the 'alert!' logo, a search bar, and the user's name 'Elliot Blenkhorn'. A left-hand navigation menu includes 'Incidents', 'Offenders', and 'Chat'. The main content area is a grid of incident reports, each with a photo, a title, a timestamp, a category tag, a description, and the reporter's name. A '+ ADD INCIDENT' button is located in the bottom right corner.
